In addition, the program is very well designed because it allows international students to learn English in a simple and effective way."

SORAKA AGATA | JAPAN

"I studied English with students of various nationalities who had the same goal of improving their English. At first, it was difficult for me to understand what they said because they had different accents. However, the more time we spent together, the more I got used to the way they talked, and the more we got to know each culture. In addition, my teachers and CAs were incredibly kind and friendly. Thanks to them, I became able to speak English with confidence and learned useful phrases and idioms."
